Dávid Papp

Frontend Developer | Authorized to work in the EU

⊙ Hungary │ @ impappdavid@gmail.com │ ⑂ GitHub │ in LinkedIn

Summary

JavaScript developer specializing in **React, Next.js, and TypeScript**, with solid backend experience in **NestJS and PostgreSQL**. I bridge the gap between design and logic, recently delivering a live social media platform and a job automation dashboard. Targeting frontend roles using React/Next.js in product-focused teams.

Skills

Languages & Frameworks

TypeScript, React, Next.js, Node.js, NestJS, Tailwind CSS

Tools & Databases:

PostgreSQL, MySQL, Git/GitHub, Shadcn/ui.

Experience

Self-Employed — Jan 2024 – Present
Frontend Developer — Remote

AI Recruitment Platform (Velvix)

Engineered a gamified job search interface featuring a "swipe-to-apply" mechanic and a real-time job feed that updates without refreshing. Implemented a comprehensive candidate dashboard to track application statuses and visualize external developer statistics (GitHub/LeetCode).

Tech Stack: React, TypeScript, TailwindCSS, React Query

Social Media Platform (Revalo)

Architected a scalable social hub with real-time messaging and dynamic feeds using **React** and **TypeScript**. Implemented complex state management for stories, communities, and a marketplace.

Tech Stack: React, TypeScript, Redux, React Query, TailwindCSS

Crypto Marketplace (Azura)

Engineered the client-side logic for an NFT trading platform, building interactive UI flows for minting, auctions, and direct sales. Integrated **D3.js** to render dynamic price charts in the browser.

Tech Stack: React, TypeScript, TailwindCSS, D3.js

Web Development Intern — Jan 2023 – Apr 2023, Webvlt Kft.
Full-Stack developer — Hungary

Developed a cinema shift scheduling app with self-service UI, reducing manual admin workload for staff; gained practical experience in frontend delivery under professional mentorship.

Tech Stack: Svelte, TypeScript, REST API, TailwindCSS.
