PROJECTS

ProjectHub   **Apr 2025 - Present**
Frontend

- Built a web app where developers can post project ideas and find collaborators based on roles and skills. Includes a feed with filters, user profiles, and an application system for joining projects.

Azura   **Feb 2025 - Mar 2025**
Frontend

- Built an NFT marketplace where users can generate NFTs using AI prompts, mint, and sell them.
- Features include NFT merging and upgrades. Developed the UI with SvelteKit, TypeScript, TailwindCSS, and ShadCN, integrating D3.js for visualizing marketplace trends.

CinemaView   **Jan 2023 - Apr 2023**
Frontend   *Webvalto.kft*

- Developed a shift scheduling app for cinema employees to self-select shifts, reducing manual scheduling. This was our team exam project.
- Built the UI using SvelteKit, TypeScript, and TailwindCSS, implemented JWT authentication, and added QR code-based TOTP for security.
